VIANNEY HALTER

The Poet of the Horological World

In his relentless pursuit of perfecting his art, Vianney Halter has created some of the most audacious watches in horological history. The Classic, the Perpetual Antiqua, the Trio and the Opus III which he created for Harry Winston, are perfect examples of his poetic vision of time. Ever the anti-conformist, Vianney Halter demonstrates absolute originality, creating an accent of the past and of the future simultaneously in his work.
